

## Crazy Fàntony

One frack, One violinist, many violin bow!  
Hi just wants to play his violin.....  
....so it would seem!

But already from her entrance,  
you can guess that something could go wrong.

The rest is a continuous amazement of the  
unexpected, created by the imagination and  
precision of the artist,  
able to manipulate objects and extricate  
himself from the unforeseen events  
that continually happen to him.
